Notes on the admission of aliens to citizenship. "The Congress shall have the power" "to establish a uniform rule of naturalization."—(Constitution U. S.. article 1, section 8, clause 4).

On this power, or on all citizens who may be adopted under any established rule made pursuant to the power, the constitution itself in other parts imposes four limitations or restrictions:

1. "No person shall be a representative who shall not

have [&c.,] been seven years a citizen of the United States." (Article 1, section 2, clause 2).

2. "No person shall be a senator who shall not have [&c ..] been nine years a citizen of the United States.

-(Article 1, section 3, clause 3).

3. "No person, except a natural-horn citizen, or citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of President."-(Article 11, section 1, clause 5.) And

1. 'No person constitutionally meligible to the office President shall be eligible to that of Vice President of the United States."- (Amendments, article 12, clause or section 3).

Under the power and the restrictions here severally quoted, Congress may legislate on this subject, in the shape of a uniform rule—that is, a rule the same, for the time being, throughout the whole Union and its

It is seen, then, that the constitution itself, in respect to foreigners, contemplates or establishes many distinct degrees of citizenship besides age, sex, and residence. 1st. Congress, under the delegated power, might, by a uniform rule, confer on all aliens, immediately on arrival—instead of at the end of five years, as at present—the right of helicing and the second sec the right of holding and transmitting property of event description; the right of voting for President, Vice President, and members of Congress; the right of voting and being voted for in respect to all State offices and trusts; and the right of holding all tederal offices with the exceptions which follow. Yet, as at present, 2nd., no such adopted citizen would be eligible to a seat in the House of Representatives, nor until seven years after taking the oath; nor, 3d., to a seat in the Senate until two years more, making nine; nor, 4th, ever to the Presidency or Vice Presidency; whilst, 5th, there are yet among us some foreigners by birth who, having been here prior to the adeption of the constitution, are eligible to the Presidency and Vice Presidency, and enjoying every other right of natural-born citizens. Behold, then, at this moment, within the bosom of our Behold, then, at this moment, within the bosom of our country, foreigners holding, by naturalization, five several grades of citizenship; besides, 6th, a host of other eral grades of citizenship; besides, 6th, a host of other foreigners, all personally under the protection of our laws, with the right to acquire, to hold, and to transmit property, including (in several States) lands and houses, and all (males) again, in different stages of advancement toward the acquisition of the political rights under the first four heads above. It is, therefore, shown that the constitution, by "a uniform rule of naturalization," did not mean a rule under which all rights whatsoever tump. One right (the second above) the constitution will holds for seven years after naturalization; another (the third) for nine years, and the fourth forever. If we follow strictly etymological meaning, it would be a bull of naturalization. One right (the second above) the constitution sec. 8, clause 4.) follow strictly etymological meaning, it would be a bull privileges and immunities of citizens in the several to say that Congress can, by a rule of naturalization, States."—(Art. 4, sec. 2, clause 1.) term we have always been obliged to look to that foun-tain rather than to dictionaries. Nothing is more natu-

sal or common than such technical reference.
In the English practice of "naturalization" it is exocedingly rare to find that aliens have been admitted to all the rights of a born subject. In England they have been almost universally, by the terms of adoption, disqualified from holding office, &c.

With us, Congress may "establish a uniform rule of naturalization," or repeal the present rule and have that it was precisely to avoid this opposition and interaction, just as we have twice had, and have twice re-"uniform laws on the subject of bankrbptcies," subject over which Congress has unlimited power inder (by the way) the same clause of the constitution.

As, then, Congress might originally have legislated or not on naturalization, and may now repeal the existing established rule, and substitute no other, so may Congress, at its good pleasure, in view of national The motives for change are many and powerful.

They cannot fail to occur to every thinking mind. Suffice it here to repeat what was once declared of a single sovereign's power—the evils of the existing rule of naturalization are great, are increasing, and ought to

be diminished. One of some experience, and who has meditated the

subject long, presumes to suggest as follows:

1. Not to repeal the existing rule and leave none, the non user on the part of Congress of the delegated power, would give at least a colorable authority to state doptions of citizens, just as the non-existence of a uniform system of bankruptcy has led to State insolvent laws; and it is evident that twenty-six State rules, without, perhaps, naiformity between any two, would in-crease the evils to be diminished, ind-pendent of extreme embarrassment, in courts and at the polls, under the provision, the "citizens of each State shall be enti-tled to all privileges and immunities of citizens in the several States."—(Constitution, article 4, section 2,

2. Not to extend the period of residence before admission to ultizenship, as this would be impolitic nationality, and unjust to aliens, in respect to the acquisition and transmission of real estate in many parts of the Union, as also in respect to other civil rights. Besides, extension of previous residence would not diminish the alleged per-juries and frauds at the polls; but,

3. Leave the basis of the naturalization system as is, and superinduce the following modifications:

An Act supplementary to the acts now in force on the subject of a uniform rule of naturalization.

SEC. 1. Be it enacted, &c., That any alien, being free white person, and who shall come into the Unite States aix months or later after the passage of this act. may be admitted to become a citizen thereof after a resi may be admitted to become a citizen increof after a reai-dence therein of at least three (1) years, and one year (2) at least after declaring his bona fide intention of be-coming a citizen, in the manner and form, and upon the other conditions not herein aftered, as prescribed by the act entitled "An act to establish a uniform rule of naturalization, and to repeal the acts heretofore passed on that subject," which was approved April 14, 1802: Provided, That no alien arriving in the United States after Precided, That no alien arriving in the United States after eix months from the passage of this act, shall ever acquire the right to vote, except in the manner hereinafter prescribed, for any elector of President or Vice President of the United States; for any member of the House of Representatives of the same; for any governor, lieutenant governor, member of the legislature, Judge of any Court of record, or Sheriff, in any State or Territory of the United States, or for any mayor, intendant president, alderman, assistant alderman, or common councilman of any city, becaugh, or incorporated town or village, in any of the said States or their Territories, or within the District of Columbia; but all aliems admitted to naturalization under the forescence receiving and

enjoined in the said act.

SEC. 4 And best further enacted, That this act shall take effect on and after six months from its passage, when all provisions of former acts, inconsistent with this act, shall be taken and held to be repealed, in respect

Should some bill like this become a law, it would not in the slightest degree affect any alien already in the United States, or who might arrive within six months after its date. Of course, the rights of naturalized citiment of this concrete and mighty republic. My humble zens would be as little touched by the act as those of advice to all around us, is to revive your spirits, to affected by the law? Probably but few; possibly not one who, at the time of its passage, would have a mind made *p to migrate to the United States. As to all female foreigners arriving after the passage of the act and the additional six months, they would be the sooner, by two years, admitted to all the ciril rights of citizenno others have ever been conferred on females. Sooner, also, by two years, would their male relatives and friends be admitted to that large class of rights, besides eligibility to all but four offices, State and fed-

eral. As to other foreigners, abroad and in existence, or who may hereafter be born abroad, what right would they have now or in future to complain of such a law? We already in the United States, whether natives, naturalized citizens, or sliens, have a great question of national policy to settle for ourselves and our own posterity, and we may settle for the benefit of both, with-out looking to speculative philanthrophy or liberty be-yond such posterity. We think we are liberal enough, when, in providing for America, we leave the door of admission open to the children of foreigners, now abroad, who may hereafter be born here, without allowing their fathers to come and help to cover now. fathers to come and help to govern us. We, who alone have any right to think on the subject, claim that we can best govern ourselves, and the better such government in the meantime, so much the better for the loreigners who may hereafter come among us, and for their American born children.

It will be observed that the bill proposes to leave future naturalized citizens as eligible to all offices and trusts as those who have heretofore been naturalized. Many of them, no doubt, will be appointed and elected to high places, as heretofore, and be found as worthy of confidence as a Montgomery, or a Morris, a Gallatin, a Findlay, or a Smiley. We, now in America, mean only that, after a given time, electors born on the soil shall alone select natives, or adopted citizens to make level. alone select natives, or adopted citizens to make laws for America, or to administer those laws.

But, without a syllable on the subject of electors (voters) for electors of President and Vice President, because, perhaps, it was intended they should be chosen by the State Legislatures, as at present in the South Carolina, the Constitution has delared:

"The House of Representatives shall be composed of residence before naturalization and a total repeal of all

members chosen every second year by the people of the several States; and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislature."—(Art. 1, sec.

Not another word is said in any other part of the instrument on the qualifications of voters.

In view of that clause, it may be asked, and to the

confusion of some minds, Has Congress the power to limit the political franchise of future adopted citizens, as in the first section of the bill proposed? The answer is, certainly not, if that were the only clause bearing on children of foreigners, now abroad, who may be asked, and to the support of his monstrous doctrines he says:

"We think we are liberal enough when, is certainly not, if that were the only clause bearing on children of foreigners, now abroad, who may be asked, and to the

question. But here are two others:

twenty-six-States, could make its own different rule, Delaware, against the will of Virginia, might make adopted citizens for both, and Michigan for New York, greatly to the annoyance of the latter; but Virginia is not represented in the Delaware Legislature, nor New a citizen of every other, we should have had by this time, "confusion worse confounded," everywhere; but Valiant indeed. William J. Brown answers no. ference of many capricious rules that the constitution in express terms, at least in respect to the adoption of oreigners, declares that Congress (in which all the States are equitably represented,) shall have the power to establish a uniform rule of naturalization through the United States. The object is as plain as the lodg-ment of the power was indispensible. No act of a single State can be put in concurrence with such power. If not left derelict and siezed upon by others from sheer necessity, it must be exclusively in the hands where primarily lodged. There is a wide field left for the exercise, on the part of the several States of the power to determine what shall be the "qualifications," (alienage and naturalization aside,) "requisite for the electors of the most numerous branch of the State Legislature." There is the land and properity qualifications in some States, age, militia service, &c., -all, however, within the range of citizenship, whether by birth or naturalization, which Congress may deter-mine for all. It can say what qualifications, for the good of all as a Union, shall be imposed upon adopted citizens in respect to the political franchises of voting throughout the United States—as the constitution itself imposed the qualifications we have seen above, on othe political franchise—eligibility to federal offices and political franchise—eligibility to federal offices and trusts. Both federal and State eligibility to office, the osed bill leaves where they were found. The constitution was a compromise and a compact

between all the people (nearly) whether citizens, aliens, (or foreigners) of one State, and similar people of the other States, or between the people generally through-out the whole Union; which, it is unimportant to the present question to determine. There had been preriously no intimate union between the parties rule of naturalization. Each State had loosely adopted, in its own way, nearly all aliens, not alien enemies, who had come within their limits.

Natives who were tories were as generally expelled. Political and military services were the great induce without record. All-very nearly all-had earned eral citizenship. An army of patriot heroes had been nany were still unsettled in any new residence. Hence the language of the constitution, "the citizens of each State shall be (&c.) citizens of the several State." That clause was a sweeping adoption or recognition. It called a nation of Americans in existence, and fixed ins in existence, and fixed their united being. Their descendants, and those since adopted, with their childern, are the present Americans—the PROPLE of the United States.

the PROPLE of the United States.

It may, perhaps, be objected, to any bill like that proposed—What would be its binding force should it become a law? Particular States might still, at their pleasure, (it may be said,) permit aliens to vote for all functionaries—State and federal—immediately on coming, for the first time, within the threshhold of the State. The only answer is—oaths are registered is heaven as on earth. If these cannot bind, then there is an end to all these cannot bind, then there is an end to all these cannot bind, then there is an end to all these cannot bind, then there is an end to all these cannot bind, then there is an end to all these cannot bind, then there is an end to all the cannot be a superior of the cannot be a superior or of the cannot be a superior of the cannot be a sup

It is not probable that the proposed bill will have the good fortune to conciliate the general favor of either native Americans or Whigs. The leading Democrats will no doubt reject it as an attempt upon their "spoils."
Yet it is not seen why the liberal of the three parties may service, signed by the commanding officer or officers of such company or companies, vessel or vessels of war, and countersigned by the next higher officer in the army or navy under whom, if any, such alien has served, shall be admitted, on presenting such evidence to any court designated in the act hereinbefore recited, to all the rights and privileges of citizenship at any time conferred by the act, on simply taking the oath of allegiance to the United States, and making the renunciation enioned in the said act.

will no doubt reject it as an attempt upon their "spoils." Yet it is not seen why the liberal of the three parties may not support the measure. More cannot be attained, if tution; and even something less would not be accepted by those who are already more than satisfied with undue advantages. But the Whigs are yet surely under unmerited defeat, and the natives flushed with the first giance to the United States, and making the renunciation its branches and the foliage to the breeze, and looks with fruits of their young endeavors. The green tree waves its branches and the foliage to the breeze, and looks with the confidence of inexperience to the returning season.

No nipping frost has ever seared its hopes. Yet this party stands on the "unsteadfast footing of a spear." or, at least a narrow isthmus, which the first wave of success, coming from either side, may forever wash from under its feet. Triumph would, indeed, be more fatal to its existence than defeat. As yet it has not concerted AMERICUS.

The political principles and measures laid down in those resolutions are so broad that but little is left for me to add. I therefore barely suggest in this place, that should I, by the partiality of my countrymen be elevated to the Chief Magistracy of the Union, I shall be ready, in my connection with Congress to recom-mend or to approve of measures in regard to the management of the public domain, so as to secure an early settlement of the same, favorable to actual settlers, but consistent, nevertheless, with a due regard to the equal rights of the whole American people in that vast ational inheritance, and also, to recommend or approve of a single alteration in our Naturalization Laws, gested by my military experience, viz: giving to all foreigners the right of citizenship who shall faithfully serve in time of war, one year, on board of our public ships, or in our land forces, regular or volunteer, on their receiving an honorable discharge from the service

He has resided in Washington from 1841, until the present time, where he has not n entitled to vote except for officers of the corpora-, and srch a thing as a Native candidate was never wn in that city. But Greely has too much sense to say that the " Reed letter" is a forgery or that Scott is

not the author of the Americus correspondence.

John K. Wilson, formerly Sheriff of Butler county, Ohio, and always a Democrat, was one of the Vice Presidents at a late Scott demonstration at Hamilton enty. He declares his determination to support the Scott ticket, and says that there are a large Democrats in Old Butler who will do the same.

One who knows informs us that John K. Wilson has been a Whig, and voted the Whig ticket for the last three years. Welcome to such converts.

D'Horace Greely advises his friends not to bet on Scott's election. This is good advice, for he is well aware that if they bet they will lose their money. But when there is a chance to win Horace is always ready. Wonder if he remembers the boots he won of Slamm

ED. STATE SENTINEL :- By a resolution of the "War.

ED. STATE SENTIFIE: —By a resolution of the "Warren Hickory Club," I am directed to furnish you the
promedings of its first meeting for publication.

On the 24th inst., a meeting of the Democrats was
held at the residence of George White, near the center
of the township. Jos. McConnel was called to the
chair, and A. J. Shearer appointed Secretary.

The black of the menting being stated—to organize a

The object of the meeting being stated—to organize a Hickory Club and transact such business as might be presented, preparatory to the County Convention—
On motion, a committee of four was appointed to prepare resolutions expressive of the sentiments of the

meeting, and nominate the permanent officers of the Club. During the absence of the committee, a free inter

During the absence of the committee, a free interchange of opinion was had as to the policy and principles of the respective parties—Democratic and Whig—the political sliding scale the latter have adopted as their platform, evidently to gain the popular favor; and the certainty of the success of the principles and measures of the Democracy, and the men they have presented for the suffrages of the people.

Suggestions were made as to who should be the nominees of the County Convention, who of our citizens was the choice of the meeting and probably of the township, for the respective offices. Messrs. Todd and Cory were mentioned in connection with the Judgeship of Common mentioned in connection with the Judgeship of Common Pleas—the meeting being evidently in favor of Todd. Messrs. Brady, Talbott, and Beck were spoken of as candidates for Treasurer; and it seems with us to be between Brady and Beck. Mr. Robson was suggested as the probable choice of the township for Sheriff; and Mr. Buell, of the city also was highly spoken of as a suitable man to be nominated for Representative. No

others were mentioned. Mr. White, from the committee, reported the followng preamble and resolutions, which were unanimously

adopted:
WHEREAS, the political contest which is to determine who shall be the servants of the people in the State

and nation, is at hand;
AND WHEREAS, the great parties of our country have selected their standard bearers according to their re-

spective tastes and principles; AND WHEREAS, we cherish with unabated zeal and ardor, the principles of Democracy, the doctrines of State and National policy promulgated by the immortal Jefferson; sustained and inflexibly adhered to by the patriot statesman Monroe; successfully carried out amidst political corruption and the contention of par-ties under the glorious administrations of Andrew Jackson; maintained with integrity by the lamented Polk, and again presented by the recent Baltimore Con-vention as the great cardinal land marks of American

Democracy: therefore,
Resolved, That in order more effectually to aid in searing the complete and permament triumph of these rinciples and the success of the Democratic ticket, the Democrats of Warren township, in mass meeting assem-bled, do hereby organize themselves into the "Warren

Resolved, That in Franklin Pierce we behold the man of the people—honest, capable, faithful, steadfast in all emergencies to the constitution and to the principles of the Democratic party; at home the advocate for the largest liberty; in time of peace, preferring the duties of the domestic circle to the honors and emoluments of the highest offices in the power of the President to be-stow; in war the first to respond to the call of his coun try; in the councils of the nation a profound statesman. In William R. King, the eminent civilian, who has illustrated his devoted attachment to the Constitution, to the Union, and to Democratic measures and policy, by a long ife devoted to their maintenance.

Resolved, Without disparaging the very many good qualities of head and heart, (save the Whiggery) we know "old Nick" our neighbor possessed of, that Joe. Wright has proved himself emphatically the people's working man, applying himself with untiring zeal and industry to beget a spirit of improvement and thrift in all our industrial pursuits, and to the developement

to continue Wright. Resolved, That A. P. Willard is the champion and favorite of both the old and the young Democracy; that Pierce, King, Wright and Willard shall receive our cor-

dial and active support.

The same committee also nominated the following officers for the Club, which were unanimously confirmed: Joseph McConnel, President; A. C. Case, David Buchanan, and George White, Vice Presidents; and E. N. Shimer and A. J. Shearer, Secretaries.

On motion, the Chair was requested to appoint additional delegates to attend the County Convention; whereupon the following gentlemen were designated

and confirmed by the meeting.

John Baker, David Buchanan, B. Fowler, George White, James Davis, Emanuel Springer, Joseph McConnel, — Schriver, E. Protsman, F. Kitby, Stephen Tyner, John Vansickle, J. Beeler, A. J. Shearer, John Gibson, David Springer, Louis Panza, Thomas S. Husted, C. D. Shimer, John White Andrew Apple, D. Fenner, J. Wallace, Benj. McVey, J. Loucks, Louis Griffith, S. Bacon, Wm. Vansickle, E. N. Shimer, John Buchanan, Benj. Groves, T. Linck John Hamilten, A. Morehouse, — Trieser, Jacob Rumphred, William Smith, George Shearer, Andrew Gibson, John Lynch, Jacob Springer, J. Kithy, Henry Kratzer, S. S. Brown, Wm. Higdon, John White jun., H. Plackey, — Wishmire, C. Clark, H. Brady, J. Clinton, J. Hunter, J. Silver, Anthony Wanpinner, and

William Hunter. On motion, the delegates to the County Convention were constituted a Township Vigilance and Business Committee, and instructed to hold a committee meeting on the day of the County Convention, to determine the ece where the meetings of the Club shall be held, the ime of the next meeting, and to secure Speakers. George White offered the following preamble and

Resolved, That it behooves Democrats throughout the country to be up and doing—every man at his post—that Whiggery, in all its multi-fanged forms, may receive a blow from the American people at the ballot box, that will sink it beyond the hope of resurrection—so deep, in the language of a distinguished and independent man, "that the bubbles may not rise to publish where is its last and final resting place."

Which resolution elicited an animated discussion, as to the men now before the American people, their principles, &c. The latter clause of the resolution was objected to: but considering it was the sentiment and

Old Warren, Mr. Editor, is Democratic in earnest, as the ides of October and November will testify.

On motion, the Club adjourned to meet at the time and place the committee may determine upon, of which due notice will be given.

To the delegates from the several townships of Marion county, Democratic Convention, in selecting a candidate for County Commissioner for District No. 3, allow the suggestion of a name that would not only command strength as a sterling Democrat—but combines the Jeffersonian elements of a suitable officer. He is "capable and honest." The person is Jacob Sourwine of Pike township, an old and influential citizen of the county, and knows the wants and the interests of the people and tax-payers.

UNDERTAKING.

We shall continue to give our especial attention to this branch of our business, with a view to release the friends of deceased persons from the indispensable trouble attending the death of a friend; and would state that they are prepared to undertake the whole business of Funerals, it desired, or any part thereof, on reasonable terms; such as furnishing either a one or two-horse Hearse, built after the most approved style. Also, Carriages, and every other requisite pertaining to the business.

PATENT CORPSE PRESERVER—They will continue to use this valuable appartus. The object for which it is intended is perfectly to preserve corpses from decay for any length of time, without being anywise offensive to delicacy, or unseemly in appearance. The value of such a machine cannot be estimated but by those tender feelings which long for the preservation of a departed friend; and among those who have been compelled to use it on account of the fast decaying of their friends, a general and pleasing satisfaction has been given; for none can speak too highly of such an important and useful invention. Benevolent institutions, and all others who desire to delay Funerals until the arrival of distant relatives, or to make suitable preparation for interment, can by the use of this machine, preserve them for weeks in a perfectly inoffensive state, allowing all to gaze upon them.

Cuts off all Competition,
and give to the requil dealer all the profits which he has heretofore been obliged to share with the jobbe. These profits, with the means sales which the superiousy of the wares insares, gives to the dealer unexampted gains; gains which are not only immediate, but which secure him a I rge and increasing income for future years. In addition to the Porcelain Patrics and included in the same system of sale, we have the wares of the

American Argille Company,
thus offering a sardsto indexement scarcely inferior to the first. These wares are new being manufactured at the celebrated establishment of Me-rs. Russell. & Earnin, of New Britains, Coms.

Ain adequate description of the wares in question would be dreemed extravagent, and scarcely believed without inspection; we therefore invite all who desire to embrace the Cartainty of Rapid Wealth, personally to call and examine, not only the wares, but the system under which they gare sold; piedging ourselves, in all cases, to make good our statements.

Gents:—I have had for several years a Chronic Bowel Complaint, caused while in Mexico during the late war, and have not been able to do any work for eight months of the year 1851. My digestive organs became very much deranged, and my whole system was very much prostrated. I was given up at three different times of die. About two months ago I purchased of W. W. ROB. ERTS, your agent at this place, a bottle of Green's Oxygenated Bitters. At this time I could not sit up at all. I began gradually to recover from that time, and have now nearly regained my health. I think the Bitters a most excellent medicine, and would cheerfully recommend it to all similarly afflicted.

The true Digestive Pluid, or Gastrie Juice. PARED from Rennet, or the fourth Stomach of the by J. S. Houghton, M. D., Philadelphia, Pa.

This is a traff

ist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after nature's own method, by nature's own agent, the Gastric Juce.

Half a teaspoonful of Pepsin, infused in water, will digest ar dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach

Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach. Pepsin is the chief element, or great digestize principle of the tastric Juice, the solvent of the Food, the purifying, preserving and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox. thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of indigestion and dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Deyspeptics, curing cases of Debility, Emacistion, Nervous Decline, and Dyspeptic Consumntion, amposed to be on the verge of the grave. The scientific evidence upon which is based, is in the highest degree curious and remarkable.

Baron Liebig in his celebrated work on Animal Chemistry, says:

"An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Combe, in his valuable writings on the "Physiology of Digestire Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Orabe, in his valuable writings on the "Physiology of Digestire Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Simon's great work, the "Chemistry of Man," (Lee & Blau-chard, Philadelphia, 1846, pp 321-2) says: "The discovery of PEP SIN forms a new era in the chemical history of Digestion. From recent experiments, we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries describe the character and

The fact that an Artificial Digestive Fluid, or Gastric Juice, persetty resembling the natural fluid, may be readily prepared, does
not admit of question. The only vronder is, that it has not before
been applied to the cure of Indigestion and Dyspepsia - so naturally
does such a use suggest itself to the mind.

LD STOMACH COMPLAINTS There is no form of Old Stomach Complaints which it does not seem to reach and move at once. No matter how bad they ray be, it gives instant relief? A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of blood, and vigor of body follow as once. It is particularly excellent in cases of Nausea, vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spriis, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, see.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and popular medicines, throughout the United States. It is prepared in Fowder and the Fluid form—and in Prescription vians for the use of Physicians.

Private Circulars for the use of Physiciana, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

The and Water-Proof Composition Boofing Material

THE undersigned respectfully beg leave to call the attention of
the community to this invaluable material for Roofs. In the
castern cities it has almost entirely superceded all other kinds of
Roofs, and in this city, although but recently introduced, has in
overy instance given the most entire satisfaction. Arrangements
are now perfected by which the subscribers are enabled to execute
all orders for the Roofing Material, either in town or country, at the
shortest notice, and on the most favorable terms.

They are economical in construction, as they effect a considerable
saving of side and cross-wall, which goes far towards paying their
cost, and are a protection against fire, presenting an incombustible
surface to burning bodies falling upon them. Being nearly level,
they may be used conveniently for all the purposes of common
yards. The daily use of Roofs, to which we can refer, sufficiently
at ests their durability for those purposes. Orders respectfully solicited.

We, the undersigned, having used the Compositerial of Louden & Duffy, very cheerfully recommisering it to possess all the advantages ascribed to Water-Froof Composition.

Mr. A. A. Louden-Sir:—In reply to yours of yesterday, I would say that had it not been for the patent paper Rooming with which the Capital House is covered, it would have been impossible to have asked the building during the late fire adjoining it; and in my opinion I hereby certify that the Roof on my house, being put on by Louden & Duffy, very much protected said Roof—a Patent Roof—at the late fire.
